The annual *Taiwan White Paper* is written and published by the American Chamber of Commerce in Taipei (AmCham). It includes a statement of overall recommendations for the coming year, an assessment of Taiwan's business climate, a review of the status of last year's priority issues, and a summary of current priority issues identified by AmCham's industry-specific committees.

The primary purposes of the Taiwan White Paper are information and advocacy. The paper summarizes AmCham's recommendations to the Taiwan government and public on legislative, regulatory, and enforcement issues that have a major impact on the quality of the business environment. It also suggests adjustments to the government's overall economic and other business-related policies. And it is used to inform government officials, elected representatives, and other interested parties in the United States about Taiwan's business climate.

Although the *Taiwan White Paper* represents the immediate business interests of AmCham's approximately 950 members, its ultimate goal is to foster the upgrading of Taiwan's economic conditions to the benefit of both local and multinational businesses. It encourages the growth of a broad spectrum of high-quality goods and services as a means to improve the quality of life for all Taiwan residents.

This document is sold in bookstores throughout Taiwan and is also available through subscriptions to AmCham's *Taiwan Business TOPICS* magazine for by direct order from the AmCham office. An order form is included in this issue on page 48.
